**APPRAISAL AND REPORT IDENTIFICATION**

This Appraisal Report is one of the following types:

Self Contained (A written report prepared under Standards Rule 2-2(a), pursuant to the Scope of Work, as disclosed elsewhere in this report.)

Summary (A written report prepared under Standards Rule 2-2(b), pursuant to the Scope of Work, as disclosed elsewhere in this report.)

Restricted Use (A written report prepared under Standards Rule 2-2(c), pursuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use by the specified client or intended user.)

**Comments on Standards Rule 2-3**

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no (or the specified) present or prospective interest in the property that is the subject of this report and no (or the specified) personal interest with respect to the parties involved.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions and conclusions were developed and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.
- I have (or have not) made a personal inspection of the property that is the subject of this report.
- No one provided significant real property appraisal assistance to the person signing this certification. (If there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report.)

**Comments on Appraisal and Report Identification**

Note any USPAP related issues requiring disclosure and any State mandated requirements:

NOTE: The subject property is in a foreclosure situation and as such, the appraiser did not have access to the property. The inspection involved a driveby view, only. Therefore, in the description and sales comparison grid, certain assumptions were necessary regarding the subject and how it compared with sales. Being somewhat familiar with the different quality levels of double-wide structures, some of the assumptions were made on the basis of exterior appearance.

In short, if a full inspection were made of the subject property, it is possible - even probably - that the estimate of value could change in either direction.

Analysis of any current agreement of sale, option, or listing of the subject property and analysis of the prior sales of subject and comparables: Subject is in foreclosure; not listed. Sale No. 1 appears to be straight sale; Sale No. 2 prior sale, land only; Sale No. 3 indicates multiple parcels; current sale does not.  
 Summary of sales comparison and value conclusion: The sales selected are basically the only three sales of double wides in the Carter County market with gross living area sufficient to be considered comparable to the subject, and also within a reasonable age range. Sale No. is inside the city limits of Elizabethton, superior to the subject or the other two sales in terms of location. However, it is inferior in several other points of comparability. Sale No. 2 is located in the Stoney Creek community of Carter County, as is the subject. It is the most similar in terms of location, though it has several superior features. Sale No. 3 is located across the county line into Johnson County, but is still in the general area of the subject and was marketed through the Elizabethton/Carter County real estate network. All the sales have smaller gross living areas; site adjustments are made on the basis of comparison of the estimated value of each site - not per acre. Assumptions were made concerning the subject.

This appraisal is made  "as-is",  subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, or  subject to the following repairs, alterations or conditions \_\_\_\_\_

BASED ON AN  EXTERIOR INSPECTION FROM THE STREET OR AN  INTERIOR AND EXTERIOR INSPECTION, I ESTIMATE THE MARKET VALUE, AS DEFINED, OF THE REAL PROPERTY THAT IS THE SUBJECT OF THIS REPORT TO BE \$ 110,000, AS OF April 23, 2009

N. Beth Ledbetter & Associates

Dear Beth:

We request that an evaluation be performed for the following:

Applicant: Jennifer Williams, GreenBank  
Property Address: 274 Bulldog Hollow Rd., Elizabhton, TN  
Legal Description: (see attached)  
Current Owner/Seller: James O. Willis

This letter is your authorization to conduct a market value evaluation of the above referenced property. The evaluation must conform to the GreenBank's appraisal guidelines and the Federal Regulatory Agency's Evaluation requirements. An evaluation does not meet the comprehensive requirements of an appraisal. However, the evaluation should support the estimate of value and include sufficient information to fully understand the evaluator's analysis. The evaluation must be based on Market Value as defined by the Agency's. The evaluation should describe the property, its location, sales history, and discuss its use if non-residential property. The evaluation should include calculations, supporting assumptions, and, if used, a discussion of comparable sales. In the case of income property, the capitalization rate, discount rate, income and expense projections, vacancy rate and absorption rate should be reasonable. The scope of an evaluation should correlate to the complexity of the transaction and to the type of real estate collateral.

The evaluation is to be addressed to the Bank and two copies are to be provided. Your fee will be paid in full when the report has been reviewed and deemed in compliance with Agency guidelines and GreenBank's standards.

If the terms of this Engagement Letter are acceptable, please sign and return to me, retaining a copy for your files. We appreciate your prompt attention in completing this report as soon as possible. Please contact me if you have any questions or desire any further property information.

Signed:

*Jennifer Williams, A/P*

**PURPOSE OF APPRAISAL:** The purpose of this appraisal is to estimate the market value of the real property that is the subject of this report based on a quantitative sales comparison analysis for use in a mortgage finance transaction.

**DEFINITION OF MARKET VALUE:** The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions\* granted by anyone associated with the sale.

\* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

## STATEMENT OF LIMITING CONDITIONS AND APPRAISER'S CERTIFICATION

**CONTINGENT AND LIMITING CONDITIONS:** The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
2. The appraiser has provided any required sketch in the appraisal report to show approximate dimensions of the improvements and the sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
4. The appraiser has noted in the appraisal report any adverse conditions (such as, but not limited to, needed repairs, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, expressed or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
5. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
6. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice.
7. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the report to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed.
9. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.

## APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I performed this appraisal by (1) personally inspecting from the street the subject property and neighborhood and each of the comparable sales (unless I have otherwise indicated in this report that I also inspected the interior of the subject property); (2) collecting, confirming, and analyzing data from reliable public and/or private sources; and (3) reporting the results of my inspection and analysis in this summary appraisal report. I further certify that I have adequate information about the physical characteristics of the subject property and the comparable sales to develop this appraisal.
2. I have researched and analyzed the comparable sales and offerings/listings in the subject market area and have reported the comparable sales in this report that are the best available for the subject property. I further certify that adequate comparable market data exists in the general market area to develop a reliable sales comparison analysis for the subject property.
3. I have taken into consideration the factors that have an impact on value in my development of the estimate of market value in the appraisal report. I further certify that I have noted any apparent or known adverse conditions in the subject improvements, on the subject site, or on any site within the immediate vicinity of the subject property of which I am aware, have considered these adverse conditions in my analysis of the property value to the extent that I had market evidence to support them, and have commented about the effect of the adverse conditions on the marketability of the subject property. I have not knowingly withheld any significant information from the appraisal report and I believe, to the best of my knowledge, that all statements and information in the appraisal report are true and correct.
4. I stated in the appraisal report only my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the contingent and limiting conditions specified in this form.
5. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or the estimate of market value in the appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
6. I have no present or contemplated future interest in the subject property, and neither my current or future employment nor my compensation for performing this appraisal is contingent on the appraised value of the property.
7. I was not required to report a predetermined value or direction in value that favors the cause of the client or any related party, the amount of the value estimate, the attainment of a specific result, or the occurrence of a subsequent event in order to receive my compensation and/or employment for performing the appraisal. I did not base the appraisal report on a requested minimum valuation, a specific valuation, or the need to approve a specific mortgage loan.
8. I estimated the market value of the real property that is the subject of this report based on the sales comparison approach to value. I further certify that I considered the cost and income approaches to value, but, through mutual agreement with the client, did not develop them, unless I have noted otherwise in this report.
9. I performed this appraisal as a limited appraisal, subject to the Departure Provision of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place as of the effective date of the appraisal (unless I have otherwise indicated in this report that the appraisal is a complete appraisal, in which case, the Departure Provision does not apply).
10. I acknowledge that an estimate of a reasonable time for exposure in the open market is a condition in the definition of market value. The exposure time associated with the estimate of market value for the subject property is consistent with the marketing time noted in the Neighborhood section of this report. The marketing period concluded for the subject property at the estimated market value is also consistent with the marketing time noted in the Neighborhood section.
11. I personally prepared all conclusions and opinions about the real estate that were set forth in the appraisal report. I further certify that no one provided significant professional assistance to me in the development of this appraisal.

**SUPERVISORY APPRAISER'S CERTIFICATION:** If a supervisory appraiser signed the appraisal report, he or she certifies and agrees that: I directly supervise the appraiser who prepared the appraisal report, have examined the appraisal report for compliance with the Uniform Standards of Professional Appraisal Practice, agree with the statements and conclusions of the appraiser, agree to be bound by the appraiser's certifications numbered 5 through 7 above, and am taking full responsibility for the appraisal and the appraisal report.

## **STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION**

**CONTINGENT AND LIMITING CONDITIONS:** The inspector's certification that appears in the appraisal report is subject to the following conditions:

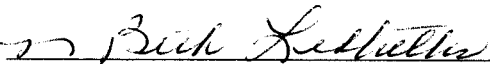

1. The inspector will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.
2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The inspector has made no survey of the property.
3. The inspector will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
5. The inspector has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The inspector will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist.
6. The inspector obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The inspector does not assume responsibility for the accuracy of such items that were furnished by other parties.
7. The inspector will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice.
8. The inspector has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
9. The inspector must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the inspector's identity and professional designations, and references to any professional appraisal organizations or the firm with which the inspector is associated) to anyone other than the borrower, the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the inspector's prior written consent. The inspector's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
10. The inspector is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

**CERTIFICATION:** The inspector certifies and agrees that:

1. I stated in the appraisal report only my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the contingent and limiting conditions specified in this form.
2. I have no present or prospective interest in the property that is the subject to this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or the estimate of market value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property.
3. I have no present or contemplated future interest in the subject property, and neither my current or future employment nor my compensation for performing this analysis is contingent on the appraised value of the property.
4. I performed this analysis in conformity with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place as of the effective date of this appraisal.
5. I have personally inspected the exterior areas of the subject property and the exterior of all properties listed as comparables in the appraisal report. To the best of my knowledge and belief, all statements and information in this report are true and correct, and I have not knowingly withheld any significant information.
6. I personally prepared all conclusions and opinions about the real estate that were set forth in the inspection. I have not authorized anyone to make a change to any item in the report; therefore, if an unauthorized change is made to the appraisal report, I will take no responsibility for it.
