Sewer

According to the former owner of the properties, Don Underwood, the House (6930) and the Office Building (6922) are each on their own septic system. According to Scott Lough, with Metro Health Dept., the only record on file of a septic system for this address is from the early 70's showing the septic system for the office building. Metro Health Dept. ordinance requires property owners that have public sewer available to them to hook up to it within 60

days of it becoming available. According to Wayne Usury with Harpeth Valley Utility District, sewer is available to this property.

For more information, please contact the Metro Nashville Health Dept. at 615-340-5604.
