

Below is a list of independent rigging and hauling contractors. Furrow Auction Company does not specifically endorse any of these companies; we provide the list for the convenience of our buyers needing to contract for the packing/crating and shipping of purchased equipment at our auction events.

Machinery removal is the responsibility of the buyer. All equipment must be removed in accordance with the specific auction timeline and terms of sale set down by Furrow Auction Company and seller. See the specific auction page for details. Furrow personnel will be on site to supervise equipment removal, but we do not perform any packing/crating, shipping or rigging services.

Anyone using a powered vehicle to move items, whether they are a rigger or buyer, must have a certificate of insurance on file with Furrow Auction Company in the amount of \$1,000,000 minimum overall liability. This can be handled by mail, e-mail, Fax or in person. Furrow Auction Company and Seller must be named as additional insured.
