Additional Utility Information provided by Rogersville Water Dept.:

- *The red house on the northern end of the property (to left of motel) is individually metered for water, but the utility dept. was unsure if it was connected to sewer.*
- *The motel and the consignment store share a single water meter, but have separate sewer lines.*
- *The brick home to the right of the motel has its own water meter and has its own sewer line.*
- *The utility dept. could not tell us if the old white house in front of Doug's House is connected to water or sewer. He could not find any water meter for this house.*
- *The unimproved land behind the homes/motel is in the county and cannot access the city water/sewer lines unless it was annexed into the city.*
