

Zoning Information – 2748 Harriman Hwy., Harriman, TN

A-1: Agricultural District (Roane County)

This Zoning District is comprised of land having a predominately rural character. It is the intent of the regulations of this District to discourage the subdivision of land, which is better suited to agricultural usage, into urban-type development, which requires increased public services, such as schools, fire protection, waste disposal, etc. If the property is to be used for any purpose other than uses listed under Section 301.2 Permitted Uses, it will be necessary to rezone the property to the appropriate district.

For more information please feel free to contact Roane County Zoning Department at (865) 376-5505 or visit their website at www.roanegov.org.
